General information

Description

Exploring Creation with Human Anatomy and Physiology is a homeschool science curriculum for elementary students. In this course, your students will do a deep dive into the unique design of their own body-both inside and out-and how they can keep it working well! They'll also explore a range of topics such as human DNA, cell anatomy, and body systems through the curriculum filled with vivid graphics, interactive lessons, and hands-on projects.

Expectations and goals

This is a parent-led class. This community thrives with the involvement of parents. At all times, parents are responsible for their own child(ren). The Tutor will model for the parents on the subject and help students gain understanding. Students are expected to participate in class, behave in a Christ-like manner, show respect toward their classmates and adults, and give the tutor their attention.

Parent-Led Weeks: We ask that a parent signs up to lead a 5-week block. Please communicate with the curriculum liaison to schedule your time.

Course materials

Required text

- 📖 Exploring Creation with Human Physiology
- 📖 Note booking journal for older elementary students
- 📖 Note booking journal for junior students, Author Name

Science Syllabus

Semester 1: Fall 2023 (Aug 28 - Dec 4th) 12 weeks

Course Schedule

Week	Date	Topic	Lesson/Chapter
Week 1	8/28/23	Introduction to A & P	Lesson 1
Week 2	9/11/23	(Cont.) Introduction to A & P	Lesson 1
Week 3	9/18/23	The Skeletal System	Lesson 2
Week 4	9/25/23	(Cont.) The Skeletal System	Lesson 2
Week 5	10/02/23	The Muscular System	Lesson 3
Week 6	10/09/23	(Cont.) The Muscular System	Lesson 3
Week 7	10/23/23	The Digestive & Renal System	Lesson 4
Week 8	10/30/23	(Cont.) The Digestive & Renal System	Lesson 4
Week 9	11/06/23	Health & Nutrition	Lesson 5
Week 10	11/13/23	(Cont.) Health & Nutrition	Lesson 5
Week 11	11/27/23	The Respiratory System	Lesson 6
Week 12	12/04/23	(Cont.) The Respiratory System	Lesson 6
